DETAILED ACTION

1. A certified copy of priority claim has been received.
2. Objection to Specification has been withdrawn.
3. Objection to claim 5 has been withdrawn.
4. Claims 1, 2 and 6 rejection under 35 U.S.C 112, first paragraph has been withdrawn.

Response to Arguments

5. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

Drawings

6. The drawings are objected to because "P1(k)" in Fig. 5 should be changed to – Px(k) --. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

Art Unit: 2634

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

7. Claims 1, 6 and 9 are objected to because of the following informalities: please give more definition for "M main coefficient". Please indicate if "M" is an integer. Appropriate correction is required.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 3, 7 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- a) It is confusing and unclear if "M" is abbreviation of cyclic prefix or the number of bits of cyclic prefix.
- b) It is unclear of what is the result of step b since step c performs a FFT on the result of step b.

Art Unit: 2634

c) It is unclear of what is the result of step c since step d performs multiplication on the result of step c.

10. Claims 4, 8 and 11 recites the limitation "said second power masker per channel level" in the last line. There is insufficient antecedent basis for this limitation in the claim.
